Works Package Plans (WPP) Task Brief Risk Assessments Site Visits, LOLER/PUWER assessments, SSOWP – Safe System of Works Packs, Network Rail Asset Protection Liaison Management, Provision of advice to obtain and maintain RISQS Accreditation, Provision of competent Health & Safety consultants.

TRAC Engineering's Plant Division provides a diverse range of Road Rail machines and equipment to deliver effective and efficient solutions to the UK rail market. Our industry wide project management and delivery experience ensures we take a wide view of project needs and are able to deliver a bespoke package to fulfil the client needs.

With years of experience in the on and off-track plant industry, our dedicated Plant team have years of knowledge and valuable experience, giving our clients the peace of mind and confidence that we can deliver the job safely and effectively.

POS PLANT MANAGEMENT

We are committed to investing in the latest technology and innovations, enabling us to provide reliable and efficient solutions. We have extensive plans to grow our fleet and deliver specialist solutions with new equipment. This includes our recently ordered Grapple saws to be fitted to state of the art Knuckle boom cranes often eliminating the need for personnel to climb dangerous trees.

TRAC Engineering are bespoke suppliers of managed plant and can tailor to our clients requirements.

POS Licence Holder

- We have held our POS Licence since the beginning of the scheme which enables us to take care of your project requirements.

24 Hour Service

- We provide a 24hr service to ensure we are always at the end of the phone to react to your requirements.

OTP Operators/Crane Controllers

- Our Operators and Crane Controllers are all trained to a high standard and have experience in a vast range of tasks. They only operate in areas of their competency

Fully RISQS Audited

- We are licensed and hold the relevant Riccal codes to work trackside as well as fully managed on track plant operations

CPA / RPA Members

- We are full members of the Construction Plant Association and the Rail Plant Association.
